

RESOLUTION NUMBER 19-12

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF SPRING VALLEY VILLAGE, TEXAS, ADOPTING A RESIDENTIAL NEIGHBORHOOD TRAFFIC CALMING/CONTROL POLICY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Spring Valley Village desires to have a written policy outlining the policy and process for requesting the installation and/or removal of residential neighborhood traffic calming/control devices, and the City does not currently have such a policy; and

WHEREAS, the City Council is of the opinion that the Residential Neighborhood Traffic Calming/Control Policy attached hereto as Exhibit "A" should be adopted.

NOW, THEREFORE,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SPRING VALLEY VILLAGE, TEXAS, THAT:

Section 1. The above and foregoing premises are true and correct and are incorporated herein and made a part hereof for all purposes.

Section 2. The City Council of the City of Spring Valley Village hereby adopts the Residential Neighborhood Traffic Calming/Control Policy attached hereto as Exhibit "A."

Section 3. This Resolution shall become effective immediately upon its passage.

DULY PASSED AND APPROVED AND ADOPTED on this the 21st day of May, 2019.

Tom S. Ramsey, Mayor
City of Spring Valley Village, Texas

ATTEST:

Roxanne Benitez, City Secretary
City of Spring Valley Village, Texas

TO

RESOLUTION NUMBER 19-12

EST. 1955

SPRING VALLEY
V I L L A G E

Residential Neighborhood Traffic Calming/Control Policy

Resolution #***** approved by the City of Spring Valley Village City Council on _____

It is important to the City of Spring Valley Village to maintain the safety and integrity of neighborhoods and meet the needs of drivers on the roadway. In response to this set of objectives, the City has developed a Neighborhood Traffic Calming/Control Policy to address certain neighborhood traffic issues.

This policy allows citizens to request the installation or removal of traffic calming/control measures and establishes a procedure for making such requests. The policy and the accompanying procedures specify the types of streets that are eligible for consideration, how to submit a request, and procedures used to evaluate a request. Considering that traffic calming/control measure(s) may also affect nearby streets, the policy provides a means for property owners in the primary and adjacent affected areas to participate in the process and understand the impact on affected streets prior to providing their feedback on the proposal.

The City is responsible for the implementation of this policy and installation or removal of any approved traffic calming/control measures. If you have any questions concerning this policy and the procedures adopted herein, please contact the Public Works Department by email to publicworks@springvalleytx.com or by phone at 713-465-8308.

Definitions

An **Applicant** is the individual who submits an Application requesting the installation or removal of a traffic calming/control measure and may be designated as the contact person for a group (Individual, HOA, subdivision, or a sub-set of an HOA or subdivision) requesting the traffic calming/control measure, as applicable.

An **Adjacent Affected Area** consists of the properties abutting:

1. The Primary Affected Area;
2. Any street that feeds into the Target Street; and
3. Those streets in the area adjacent to the Target Street that are likely to experience an increase in traffic after a traffic calming/control measure is implemented due to diverted traffic and/or depend on the Target Street for convenient access as determined by the City.

The **Primary Affected Area** consists of the properties abutting the Target Street. The City will determine the Primary Affected Area for the Target Street following the submittal of a complete Application.

Street closure refers to the partial or complete closure of a publicly-owned and maintained street to through traffic, typically implemented by the installation of a physical measure or barrier designed to prevent vehicular traffic from passing in either direction, and may include warning signage, pedestrian access through the barrier, emergency vehicle access, and a vehicle turn-around, if required.

Street length is the quantified distance along the centerline of the street from the projection of the curb line at the last intersecting street or an existing acceptable turn-around point to the center of the proposed turn-around, dead-end, or cul-de-sac.

A **Target Street** is the street for which a complete Application for the installation or removal of a traffic calming/control measure has been submitted to the City.

A **Traffic calming/control measure(s)** is traffic control regulatory signage, a physical barrier or a geometric design feature installed to reduce the speed and/or volume of vehicles traveling a roadway.

Eligibility Requirements for Requesting Installation or Removal of a Traffic Calming/Control Measure

A Project Request and/or Application for Residential Neighborhood Traffic Calming/Control Measure(s) is eligible for consideration by the City if it meets all of the following eligibility requirements:

- (1) Traffic calming and control measures that are eligible for consideration by the City Council are:
 1. Speed Cushions
 2. Stop Signs
 3. New Traffic Signals

4. Changes to traffic signal sequencing/signalization

5. Road closures (extreme situations)

Notwithstanding the criteria and procedures described in this policy, the City Council, at its discretion, may close, divert or reopen any public street within the City when deemed necessary to preserve or protect the public health, safety, and welfare.

(2) Operational Characteristics of Target Street:

(a) Traffic calming/control measure(s) may be requested only for Local Streets or Collector Streets as identified in Appendix A hereto.

(b) Properties fronting or having access to the Target Street must be predominantly residential in character.

(c) A traffic calming/control measure must not eliminate the only means of vehicular, pedestrian, emergency, or service vehicle access to any property or restrict access to utilities.

(d) A road closure or any other traffic calming/control measure must not create terminated roadway segments, dead-end blocks, or cul-de-sacs that are greater than 500' in length.

(3) Geometric Characteristics of Target Street:

(a) The Target Street must have adequate sight distances for safely accommodating the traffic calming/control measure, as determined by the City.

(b) The Target Street must not have curves or grades that prevent safe placement of the traffic calming/control measure. The measure may not be located on streets that have a vertical grade of more than 5% on their immediate approaches.

(c) The Target Street must be paved and be at least 1,000 feet in contiguous length. If there is no curb and gutter, a special design is required to prevent vehicles from maneuvering around the traffic calming/control measure(s).

(d) The design and implementation of the traffic calming/control measure must not interfere with the existing Target Street drainage, property access, or driveways.

(e) Street rehabilitation/reconstruction of any sort on the Target Street scheduled to occur within one year of the requested traffic calming/control measure will delay the request until such time that, if approved, it can be completed during the planned construction process.

An Application for the installation or removal of a traffic calming/control measure must meet the above Eligibility Requirements.

Procedures for Requesting the Installation or Removal of Traffic Calming/Control Measure(s)

1.1.1. Project Request

Prior to submitting an Application, a Project Request for Residential Neighborhood Traffic Calming/Control Measure(s) must be submitted to the Department of Public Works for the City of Spring Valley Village in the form provided by the City and must originate from at least one of the property owners residing on the Target Street. A Project Request may be submitted by email to publicworks@springvalleytx.com or by hard copy to City of Spring Valley Village, Attn: Department of Public Works, 1025 Campbell Road, Houston, Texas 77055. The submission of a Project Request for Residential Neighborhood Traffic Calming/Control Measure(s) will prompt the generation of a Traffic Calming/Control Measure(s) Petition that will be issued and dated by the City. An example of a Project Request form is provided in Appendix B.

1.1.2. Traffic Calming/Control Measure (s) Petition Requirements

After submitting a Project Request and prior to submitting an Application, the Applicant must obtain a Traffic Calming/Control Measure(s) Petition that is issued and dated by the City. The Applicant must obtain all required signatures.

- (a) The Petition must be signed by a minimum of 75% of the residential property owners in the Primary Affected Area which will be identified by the City.
- (b) Signatures from renters or tenants do not qualify.
- (c) All signatures on the Petition must be dated within 90 days of the issuance of the Petition by the City.

In order to obtain a Petition from the City to submit with an Application, please submit a completed Project Request for Residential Neighborhood Traffic Calming/Control Measure(s) to the Public Works Department either by email to publicworks@springvalleytx.com or by hard copy delivered to City of Spring Valley Village, Attn: Department of Public Works, 1025 Campbell Road, Houston, Texas 77055. The Primary Affected Area will be determined by the City, and a Petition will be issued and provided to the Applicant either by email or hard copy for use with the Application.

1.1.3. Application Requirements

An Application consists of:

- (a) A completed Application for Residential Neighborhood Traffic Calming/Control Measure(s) provided by the City and the form of which may be found in Appendix B to this policy;
- (b) A completed Traffic Calming/Control Measure(s) Petition using a Petition that has been issued by the City; **and**
- (c) The application review fee of \$100 which is due at the time of submittal.

1.1.4. Application Submittal and Review

Each Application will be reviewed by the City for compliance with this policy, and only complete Applications will be accepted and processed for consideration by the City Council. In the event that an Application is deemed to be incomplete, the Applicant will be notified by the City in writing of the deficiency that exists.

1.1.5. Public Notice

Once City staff has reviewed and confirmed that an Application is complete, the City will notify all property owners within both the Primary Affected Area and the Adjacent Affected Area of the proposed traffic calming/control measure(s) by mailing a public notice and map, an example of which is provided in Appendix B, that:

- (a) describes the proposed traffic calming/control measure type(s) and location;
- (b) provides the date of the City Council meeting during which the proposed traffic calming/control measure(s) will be considered; and
- (c) provides information on ways that property owners may provide feedback concerning the proposed traffic calming/control measure(s) and a deadline for doing so.

1.1.6. City Council Decision

The City Council shall have the final decision making authority regarding all complete Applications for Residential Neighborhood Traffic Calming/Control Measure(s). The City Council will hold a public hearing on the proposed traffic calming/control measure(s) during the meeting at which the proposed measure(s) will be considered in order to provide the public with an additional opportunity to provide feedback prior to the City Council making its decision.

1.1.7. Prohibition on Submission of Application for One Year

In the event that the City Council denies an Application regarding the proposed Traffic Calming/Control Measures, no Application may be submitted for the street(s) that were the subject of the denied Application for one year from the date of the City Council's denial of the Application.

Please attach completed Traffic Calming/Control Measure(s) Petition issued by the City. Failure to
attach such Petition to this Application will result in rejection of the Application.

Traffic Calming/Control Measure(s) Petition Form

The City of Spring Valley Village requires this Petition to consider an Application requesting the installation or removal of traffic calming/control measure(s) on an eligible street. The Petition will be issued and dated by the City, and it must be signed by a minimum of 75% of the property owners in the Primary Affected Area. Signatures from renters or tenants do not qualify. All signatures on the Petition must be dated within 90 days of the issuance of the Petition by the City.

Obtaining a completed Petition is one step in the process and does not guarantee approval of a requested traffic calming/control measure(s) for a particular street.

By signing this Petition, I affirm that I am the property owner of the Property Address listed and that I concur with the traffic calming/control measure(s) being requested. Seventy-five percent (75%) of the Primary Affected Area's property owners must concur for the City to consider an Application for Residential Neighborhood Traffic Calming/Control Measure(s).

SPRING VALLEY VILLAGE

May 1, 2019

Dear Property Owner:

Over the last several months, City staff has been developing a proposed Residential Neighborhood Traffic Calming/Control Measure Policy for use by the City Council in evaluating traffic calming/control measures to ensure consistency for all such requests.

On Tuesday, May 21, 2019, beginning at 6:00 pm in the City Council Chambers at Spring Valley Village City Hall, 1025 Campbell Road, Houston, Texas 77055, the City Council will be discussing and possibly taking action on a proposed Residential Neighborhood Traffic Calming/Control Policy that has been developed, a copy of which is available on the home page of the City's website at www.springvalleytx.com. You are encouraged to attend the meeting to hear the discussion by the City Council and provide feedback concerning the proposed Policy.

The packet for the meeting will be posted by the close of business on Thursday, May 16, 2019, to the City's website in the Agenda Center which you can find at <https://springvalleytx.com/AgendaCenter> and scrolling down to the City Council section. You will also be able to download the packet to review the information that is included related to this discussion item.

The City Council, and City staff appreciate your participation concerning the proposed Residential Neighborhood Traffic Calming/Control Policy. Should you have any questions concerning the meeting, please feel free to contact me via email to jrobinson@springvalleytx.com or telephone to (713) 465-8308.

Sincerely,

A handwritten signature in blue ink, appearing to read "Julie M. Robinson", is written over the printed name.
